**Directions:** In the first column, list at least 5 criteria (one per box) that are important to consider when selecting a good website. Then, across the top of the rubric, write the names or URLs of the three websites that you want to compare. Next, give each website a score on each of the criteria you listed. (For each of the criteria your websites can score 1-3 points. Put an X under the score that you feel each website deserves.) When you are finished, total your scores for each of the three websites and use these scores to help you decide which of the sites is the best.
